REPLY TO OPPOSITION TO INFORMAL OBJECTIONS

To the Honorable, The Chairman and Members of the Federal
Communications Commission:

On or about January 15, 1991, the Committee on Media Integrity filed informal objections to the application of Community Television of Southern California ("CTSC") for a construction permit for a new television station on Channel #39 in Bakersfield, California. File No. BPET-881012KE

Dear Sir:

We were recently served with voluminous papers by Community Television of Southern California, applicant in the above proceedings, in further response to filings we made several months before. This is to let the Commission know that we expect to reply to the papers just served on us. It may take us a little while, but we do not expect to take as much time as did the applicant.

Sincerely yours,

Richard A. Perkins
